

PUNDITS ARE FICKLE,
FINANCIAL CHARTS SLIP AROUND,
WORLD EVENTS HAVE A MIND OF THEIR OWN.

**BUT—MOUNTAINS DON'T SUDDENLY DISAPPEAR,
RIVERS DON'T STOP MOVING, AND
THERE WILL NEVER BE ANOTHER ASPEN.**

Ask us for real market indicators, we'll show you the places that never change. Hunter Creek Trail at sunset. Where the Roaring Fork meets Maroon Creek. The secret path up any mountain. Then we'll point the way to festivals of ideas, music, food and design that can't be emulated. We'll uncover bookstores you can walk to, post offices that remember your name, all the reasons we live here.

There is no other Aspen, and what can't be duplicated will never lose its worth. We know many properties so special and priced incredibly well, they won't be around next season. From these stars, we sift out the few each week that will be gone in a blink. Call or e-mail us to catch our TOP TEN.

But first, we'll make sure you stop. Look around. And see what your children will see.
